prolonged, after myocardial infarction, relieved by ACTH and cortisone (Edeiken and Bass), 686
Shunt(s), aortopulmonary, hemodynamic effects of (Rudolph et al.), 447
left-to-right, spread to appearance time ratio in estimation of (Phinney et al.), 748
Silent areas, electrically, of myocardium, electrocardiographic alterations associated with (DePasquale et al.), 697
Single ventricle, ECG and VCG features (García-Palmieri et al.), 563
Sinus rhythm, normal, value of converting atrial fibrillation to (Ferrer and Harvey), 725
Skin, blood flow in, in human forearm, capacitance-plethysmograph method for estimation of (Hyman et al.), 508
Solutions, micromolecular, oxygenated, effects of perfusion of, into ischemic left ventricular myocardium (Petropoulos), 777, 788
Spatial VCG systems, thoughts concerning (Zao), 426 (Annot.)
Spironolactone, use in diuretic therapy (Singer and DeGraff), 835
Spread to appearance time ratio in estimation of left-to-right shunts (Phinney et al.), 748
Starling's law of heart, ultrastructural basis of (Sonnenblick et al.), 336
Stenosis, aortic, ECG and VCG features (García-Palmieri et al.), 562
valvular, use of amyl nitrite in hemodynamic assessment of (Marcus et al.), 468
mitral, patients with, correlation of two-step exercise test (Master's test) and hemodynamic findings in (Rubeiz et al.), 311
physiologic problems in (Arnott and Withering), 145
muscular subaortic, poststenotic dilatation of aorta with (Weintraub et al.), 741
use of amyl nitrite in hemodynamic assessment of (Marcus et al.), 468
pulmonary, ECG and VCG features (García-Palmieri et al.), 558
of pulmonary arteries, dilatation of pulmonary trunk in, in children (D'Cruz et al.), 612
valve, dilatation of pulmonary trunk in, in children (D'Cruz et al.), 612
subaortic, severe (Raghib et al.), 254 (CPC)
Stereoscopic demonstration of human cerebral microcirculation, methods for (Hale and Reed), 476
Stethoscopes, comparative efficiency (Groom), 220
Stimuli, sexual olfactory, sensitivity of insects to (Jacobson), 577 (Annot.)
Stokes-Adams attacks, A-V dissociation and, myotonia dystrophica with (Petkovich et al.), 391
Stomach, hemodynamic effects of bradykinin and gastrin in (Jacobson), 214
Streptococcus, rheumatic fever and glomerulonephritis, 432 (B.Rev.)
Stress, emotional, acute pressor responses to, circulation in muscle during (Brod), 424 (Annot.)
Stroke volume, ventricular, role of sarcomere in determining (Sonnenblick et al.), 336
Students, medical, psychological characteristics of; index of Rorschach responses, 579 (B.Rev.)

Subaortic stenosis, muscular, poststenotic dilatation of aorta with (Weintraub et al.), 741
use of amyl nitrite in hemodynamic assessment of (Marcus et al.), 468
severe (Raghib et al.), 254 (CPC)
Surgery, arterial, indications and techniques, 579 (B.Rev.)
cardiovascular, 1963, 433 (B.Rev.)
of heart, anesthesia for, 288 (B.Rev.)
in World War II: Thoracic surgery, Vol. I, 141 (B.Rev.)
Syncopal attacks due to ventricular tachycardia, use of pacemaker in prevention (Dressler), 19
Syncope, fatal, sudden death as (Pruitt), 116
Systolic murmur(s), apical, relation to mitral valve disease (Schrire), 305
transmission of, from pulmonary artery into left atrium (Perry et al.), 443

T

T wave(s), late peaking of, as digitalis effect (Levine and Angelakos), 320
nomograms (Figs. 4-6) and regression equations (Table I) for prediction of, in Leads V_4, V_5, and V_6 (Simonson et al.), 438
Tachycardia, ventricular, frequency of, as cause of Adams-Stokes attacks and rate of pacing required for its prevention (Dressler), 19
paradoxical acceleration of, after procaine amide therapy (Shalan et al.), 387
Takayashu's syndrome (Whitaker et al.), 549 (CPC)
Taussig-Bing lesion (Straus et al.), 804 (CPC)
Tetralogy of Fallot, cyanotic, with comments in regard to ventricular septal defect (Popper et al.), 32
ECG and VCG features (García-Palmieri et al.), 559
Thiazide diuretics, clinical use (Lyon and DeGraff), 569
pharmacology (Lyon and DeGraff), 421
drugs and effective dosages (Lyon and DeGraff), 570
therapy, metabolic complications of, and their correction (Lyon and DeGraff), 710
Thoracic surgery, Vol. I: Surgery in World War II, 141 (B.Rev.)
Thromboaortitis (Heggtveit), 572 (Annot.)
Timing of cardiac cycle, simple bedside technique for (Levine and Mathur), 840 (Annot.)
Tissue transplantation, development of, 721 (B. Rev.)
Transfusion, blood, general principles, 143 (B.Rev.)
Transmission of systolic murmurs from pulmonary artery into left atrium (Perry et al.), 443
Transplantation, tissue, development of, 721 (B. Rev.)
Transposition of great vessels, complete, ECG and VCG features (García-Palmieri et al.), 560
corrected, ECG and VCG features (García-Palmieri et al.), 566
Transventricular pulmonary valvulotomy, right ventricular aneurysm as complication of (Mirowski et al.), 799
Trichlormethiazide, thiazide diuretic, forms and dosage (Lyon and DeGraff), 570
Tricuspid atresia, ECG and VCG features (García-Palmieri et al.), 563
valve, reduplication of, in right ventricular outflow tract (Pate et al.), 251
Trigger mechanism of endotoxin shock, is histamine? (Jacobson and Kalas), 716 (Annot.)
Trilogy of Fallot, ECG and VCG features (García-Palmieri et al.), 560
Truncus arteriosus, ECG and VCG features (García-Palmieri et al.), 564
Two-step exercise test (Master's test), correlation with hemodynamic findings in patients with mitral stenosis (Rubeiz et al.), 311
Tyrode solution, perfusion of circumflex coronary artery with, cardiac function during (Petropoulos and Meijne), 370
into ischemic left ventricular myocardium, effects of (Petropoulos), 777, 788

U

U wave, postextrasystolic alternans of, due to hypokalemia (Mullican and Fisch), 383
Ultrastructural basis of Starling's law of heart (Sonnenblick et al.), 336
Urea nitrogen, blood, elevation of, metabolic complication of thiazide therapy (Lyon and DeGraff), 712
Ureteral pressure, renal blood flow influenced by changes in (Hinshaw et al.), 652
Urine, examination of (Little), 715 (Annot.)

V

Valve, pulmonary, congenital absence of (D'Cruz et al.), 728
stenosis of, dilatation of pulmonary trunk in, in children (D'Cruz et al.), 612
Valvotomy, mitral, and restenosis, electrocardiographic evaluation (Goodwin), 284 (Annot.)
pulmonary, transventricular, right ventricular aneurysm as complication of (Mirowski et al.), 799
Varicose veins, injection treatment of, modern approach to, and applications in pregnant patients (Fegan et al.), 757
Vascular disorders, niacin in, 721 (B.Rev.)
Vasodilator therapy, coronary, for angina pectoris (Rowe), 691
VCG systems, spatial, thoughts concerning (Zao), 426 (Annot.)
Vectorcardiogram in congenital heart disease (García-Palmieri et al.), 556
limits of information in (Horan et al.), 362
Vectograph printing process, in study of cerebral circulation (Hale and Reed), 479
Veins, innervation of (in German), 433 (B.Rev.)
varicose, injection treatment of, modern approach to, and applications in pregnant patients (Fegan et al.), 757
and venous tone (Folkow and Mellander), 397
Venen, Innervation der, 433 (B.Rev.)
Venous blood, perfusion of circumflex coronary artery with, cardiac function during (Petropoulos and Meijne), 370
connection, pulmonary, total anomalous; electrovectorcardiographic, hemodynamic, and anatomic correlations (Gessner et al.), 459
pressure, renal blood flow influenced by changes in (Hinshaw et al.), 652
tone, veins and (Folkow and Mellander), 397
Ventricle, right, wall of, delayed activation of, electrocardiographic changes due to (Moore et al.), 347
single, ECG and VCG features (García-Palmieri et al.), 563
Ventricular activation, sequence of, in dogs with surgically created atrial septal defect (Boineau et al.), 637
aneurysm, pre-existent, Salmonella infantis infection of (McNally et al.), 541
right, in association with gonadal agenesis (Mirowski et al.), 799
as complication of transventricular pulmonary valvulotomy (Mirowski et al.), 799

Ventricular—Cont'd
hypertrophy, electrocardiographic manifestations; computer study of ECG-anatomic correlations (Carter and Estes), 173
myocardium, left, ischemic, perfusion of oxygenated micromolecular solutions into (Petropoulos), 777, 788
outflow, right, obstruction to, new form of (Pate et al.), 249
rupture in case of Salmonella myocarditis (Sanders and Misanik), 682
septal defect, associated with congenital mitral insufficiency (Gilbert et al.), 107
congenital isolated; hemodynamics, clinical features and prognosis after age of two years, 140 (B.Rev.)
cyanotic tetralogy of Fallot, with comments in regard to (Popper et al.), 32
ECG and VCG features (García-Palmieri et al.), 561
size and stroke volume, role of sarcomere in determining (Sonnenblick et al.), 336
stroke volume, role of sarcomere in determining (Sonnenblick et al.), 336
tachycardia, paradoxical acceleration of, after procaine amide therapy (Shalan et al.), 387
Verschluss-Krankheiten, Ätiologie und Klinik der arteriellen und venösen, 289 (B.Rev.)
Viscosity, blood, reduction in, dextran-exchange anemia and, in heart-lung preparation (Fowler and Holmes), 204
Voltage, errors in, in multichannel ECG recordings using newer electrode materials (King), 295

W

Wave, T, late peaking of, as digitalis effect (Levine and Angelakos), 320
U, postextrasystolic alternans of, due to hypokalemia (Mullican and Fisch), 383
Wave-form, electrocardiographic, comparison of human and computer classification and identification (Yasui et al.), 236
Waves, Q, abnormal, simulating myocardial infarction in diffuse myocardial disease (Tavel and Fisch), 534
absence of, in Leads I, aV_L, V_5, and V_6 in children (Gup et al.), 596
as ECG syndrome in septal fibrosis (Gup et al.), 596
R and T, nomograms (Figs. 1-6) and regression equations (Table I) for prediction of, in Leads V_4, V_5, and V_6 (Simonson et al.), 438
World War II, surgery in: Thoracic surgery, Vol. I, 141 (B.Rev.)

X

X-irradiation, cardiac, in dogs, electrocardiographic and pathologic changes after (Phillips et al.), 524
